PRODUCTS AVAILABLE

eDirectSM

- ◆ Used by high volume Direct to Consumer agencies today. Interfaces to agency AMS/ CRM to maximize data shared. Gathers eApp, eSignature and reduces cycle time via real-time client side editing.

VISSSM (Virtual Insurance Sales System)

- ◆ Powered by the same technology as eDirect, VISS is used by thousands of agents each and every day for quote, eApp and eSignature.

eRequirementSM / ePHSSM

- ◆ The best tools to gather additional requirements either pre or post issue.

eEvaluateSM

- ◆ Exciting pre-quote tool to eEvaluate the risk class for your case in real time! Handles multiple impairment, co-morbidity conditions and full rules control by Carrier. Less need to process "informals".

INFORMATION SOLUTIONS THAT WORK

eEvaluate^{PLUS}

A true, real-time decisioning tool for Rapid Issue / Instant Issue products.

Supports Issue, Refer, and Decline decision logic.

Interfaces with multiple data products: Lexis-Nexis, MIB, and Milliman Rx.

Supports carrier-specific underwriting rules including multiple impairments, co-morbidities, debits and credits, and other 'secret-sauce'.

Can support agent/agency and consumer processing.

eEvaluate^{PLUS} is currently in production for Term, Accidental Death, Disability Income, and Final Expense products.

If you need to develop and offer these type of products and need a flexible decisioning tool that cost significantly less than a full-blown underwriting engine, then eEvaluate^{PLUS} is for you.

Contact PSG for a demo of eEvaluate^{PLUS}, The fast, affordable, flexible tool.
